EXPERIENCE

HCDE K-12 Outreach Directed Research Group
March - June 2017 at the University of Washington

Redesigned, organized, and ran HCDE classroom educational outreach activities at the University of Washington and various Seattle high schools and middle schools.

Lab Support Technician for Genzyme Sanofi
June 2017 - Present in Lynnwood, Washington

Worked with Quality Control to provide lab assistance for analysts, including making solutions for assays and complying with cGMP standards.

PROJECTS

Roadie Musical App
October - December 2017 at the University of Washington

After ten weeks of collaborative user-centered research and design, my team created a concept app that aims to control sound balance for hobbyist musicians.

Sisters Baking Company Website Redesign
April - July 2017 in Edmonds, Washington

Redesigned a local business's Wordpress website to better-align with their target audience and managed the front-end portion of the project.

Cake Potato Lifestyle Blog
January 2018 in Seattle, Washington

Personal blog theme design and development on Google's Blogger CMS.
